

Safety Data Sheet

S D S

May be used to comply with OSHA's Hazard Communication Standard, 29 CFR 1910.1200. Standard must be consulted for specific requirements.

Chemical Name:

Dr Greengood for Cockroaches

Date of Preparation: February 2, 2016

Section 1 – Chemical Product and Company Information

Product/Chemical Name: Dr Greengood for Cockroaches
Manufacturer's Name: Dr Greengood
Address: P O Box 2416 McKinney Texas 75070
Chemical Formulation: Proprietary Mixture
C A S Number: Mixture
Synonyms: N/A
Derivation: N/A
General Use: Mixture is intended to be diluted and used in pest control settings
Emergency Phone Number: 619 825 2121

Section 2 – Hazard(s) Identification

Precautionary Statement(s): May cause mild skin and eye irritation.
Primary Entry Routes: Eye contact. Skin contact. Ingestion.
Target Organs:
Inhalation: Not Applicable
Eyes: May cause mild eye irritation
Skin: May cause mild skin irritation
Ingestion: May cause gastrointestinal irritation with nausea and diarrhea
Carcinogenicity: None.
Medical Conditions Aggravated by Long-Term Exposure: None known.
Chronic Effects:
Skin: Allergic reaction – Dermatitis
Ingestion: Repeated ingestion may affect liver, kidneys and metabolism (weight loss.)
Human/Animals: Animal tests show reproductive effects. No human data found at this point.
Hazard Classification: Mildskin irritation, category 3. Single word: warning

Section 3 – Composition / Information on Ingredients

Hazardous Chemicals	Chemical Names	Synonym	C:s	Weight o/o	LSDO Oral RAT	LDSO Dermal Rabbit	LCSO Inhalation Rat
None	None	None	None	None	None	None	None

Safety Data Sheet

Section – 4 First Aid Measures

Inhalation:	Move to area with fresh air
Eye Contact:	Rinse with water. If irritation persists seek medical attention.
Skin Contact:	Rinse with water. If irritation persists seek medical attention.
Ingestion:	Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed seek a physician immediately.

Section – 5 Fire Fighting Measures

Suitable Extinguishing Media:	Dry chemical, water spray, foam or carbon dioxide.
Specific Hazards:	When heated to decomposition it emits acrid smoke and irritating fumes.
Unusual Hazards:	None known
Specific Methods:	No special methods required
Special Protective Equipment for Firefighters:	As in any fire, wear self-contained breathing apparatus pressure demand and full protective gear.

Section – 6 Accidental Release Measurements

Personal Precautions:	See Section 8
Environmental Precautions and Clean up:	Use appropriate containment to avoid environmental contamination. Soak up with inert absorbent material. Sweep up and shovel into suitable containers for disposal. Use a water rinse for final clean-up.

Section 7 – Handling and Storage

Handling Precautions:	Avoid unnecessary long term contact with skin, eyes and clothing. Do not taste or swallow. Use with adequate ventilation. Avoid unnecessary long term breathing mists or vapors. Remove and wash contaminated clothing and footwear before reuse if corporate Health and Safety Regulations require.
Storage Requirements:	Keep container(s) stored in cool, well-ventilated area. Keep container tightly closed until ready for use.

Section 8 – Exposure Controls / Personal Protection

Engineering Measures to Reduce Exposure	Good general ventilation should be sufficient to control airborne levels. Respiratory protection is not required if good ventilation is maintained.
Eye Protection:	If required by corporate health and safety, wear splash goggles.

Safety Data Sheet

Hand Protection: If required by corporate health and safety, wear rubber or latex gloves.

Hygiene Measures: Handle in accordance with good industrial hygiene and safety practice.

Section 9 – Exposure Controls / Personal Protection

Physical State:	Liquid	Vapor Density	No information Available
pH:	4.0 – 4.5	Evaporation Rate:	Same as water
Appearance:	Aqueous solution	Boiling Point/Range:	> 100 ⁰ C (212 ⁰ F)
Color:	Light amber	Freezing Point/Range:	<0 ⁰ C (32 ⁰ F)
Odor:	Similar to apple cider	Decomposition	
Taste:	Sharp	Temperature:	Not determined
Specific Gravity:	1.00 – 1.04	Auto ignition	
Density:	8.35 lbs/gal	Temperature:	Not determined
Flash Point:	>93.3 ⁰ C (200 ⁰ F)	Water/Oil Dist.	
Solubility:	Soluble	Coefficient:	Not determined
Viscosity:	No Information Available	Flammability:	Not determined
% Volatile (volume)	70 – 75%	Elemental	
Dilution pH:	N.A.	Phosphorous	0.0

Section 10 – Stability and Reactivity

Stability: Product is indefinitely stable in sealed containers.

Polymerization: Hazardous Polymerization does not occur.

Stabilizers: None at this time.

Physical appearance: Safety issues will not arise if product's physical appearance changes.

Materials to Avoid: Strong acids, bases, oxidative agents and quaternary disinfectants can degrade/inactivate proteins.

Conditions to Avoid: Storage in elevated temperatures or direct sunlight for prolonged periods. DO NOT freeze.

Section 11 - Toxicological Information

Routes of Entry: Absorbed by the skin. Eye contact

Acute Toxicity: Oral LD50 estimated to be >2g/Kg(Rat). Dermal LD50 estimated to be >2g/Kg(Rabbit). Contains only ingredients that are Recognized Safe in food applications in accordance with U.S. Food and Drug Administration (FDA) 21 CFR 178.3400

Component Information: See Section 3

Chronic Toxicity – Skin

Ingestion

Potential harmful

Chemical/carcinogen:

Special Remarks on Chronic Effects on Humans:

Safety Data Sheet

Section 12 – Ecological Information

Environmental Information: None at this time

Section 13 – Disposal Considerations

Waste Disposal: Waste must be disposed of in accordance with federal, state and local environment regulations. Do not reuse empty container.

Section 14 – Transport Information

DOT/TDG Please refer to the Bill of Lading/receiving documents for up to date shipping information where applicable.

UN number: None assigned

UN proper shipping name: None assigned

Transport hazard class(es): Not considered as a hazardous material or dangerous goods. No transport class assigned or needed.

Packing group number: No packing group assigned.

Environmental hazards: No known environmental hazards.

Guidance on transport in bulk: Transport in bulk according to Annex II of MARPOL 73/78 and the International Bulk Chemical Code (IBC Code).

Special precautions for user(s): No known precautions for transport. It is advised to avoid freezing product and temperatures above 140° F.

Section 15- Regulatory Information

United States

United States Inventory:

All components are listed or exempt

California Prop 65:

The following detectable components of this product are substances, or belong to classes of substances, known to the State of California to cause cancer and/or reproductive toxicity.

Component Information: See Section 3

Chronic Toxicity – Skin
Prolonged exposure in some cases may cause allergic reaction, such as dermatitis.

Ingestion
Repeated ingestion may affect liver, kidneys, and metabolism (weight loss).

Potential harmful
Chemical/carcinogen: Not listed in National Toxicology Program (NTP) Report on Carcinogens and not found to be potential carcinogen in International Agency for Research on Cancer (IARC) Monographs or by OSHA.

Special Remarks on Chronic
Effects on Humans: No human data found at this point.

Safety Data Sheet

Ingestion:	Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed seek a physician immediately.

Section – 5 Fire Fighting Measures

Suitable Extinguishing Media:	Dry chemical, water spray, foam or carbon dioxide.
Specific Hazards:	When heated to decomposition it emits acrid smoke and irritating fumes.
Unusual Hazards:	None known
Specific Methods:	No special methods required
Special Protective Equipment for Firefighters:	As in any fire, wear self-contained breathing apparatus pressure demand and full protective gear.

Section – 6 Accidental Release Measurements

Personal Precautions:	See Section 8
Environmental Precautions and Clean up:	Use appropriate containment to avoid environmental contamination. Soak up with inert absorbent material. Sweep up and shovel into suitable containers for disposal. Use a water rinse for final clean-up.

Section 7 – Handling and Storage

Handling Precautions:	Avoid unnecessary long term contact with skin, eyes and clothing. Do not taste or swallow. Use with adequate ventilation. Avoid unnecessary long term breathing mists or vapors. Remove and wash contaminated clothing and footwear before reuse if corporate Health and Safety Regulations require.
Storage Requirements:	Keep container(s) stored in cool, well-ventilated area. Keep container tightly closed until ready for use.

Section 8 – Exposure Controls / Personal Protection

Engineering Measures to Reduce Exposure	Good general ventilation should be sufficient to control airborne levels. Respiratory protection is not required if good ventilation is maintained.
Eye Protection:	If required by corporate health and safety, wear splash goggles.

Safety Data Sheet

Hand Protection: If required by corporate health and safety, wear rubber or latex gloves.

Hygiene Measures: Handle in accordance with good industrial hygiene and safety practice.

Section 9 – Exposure Controls / Personal Protection

Physical State:	Liquid	Vapor Density	No information Available
pH:	4.0 – 4.5	Evaporation Rate:	Same as water
Appearance:	Aqueous solution	Boiling Point/Range:	> 100 ⁰ C (212 ⁰ F)
Color:	Light amber	Freezing Point/Range:	<0 ⁰ C (32 ⁰ F)
Odor:	Similar to apple cider	Decomposition	
Taste:	Sharp	Temperature:	Not determined
Specific Gravity:	1.00 – 1.04	Auto ignition	
Density:	8.35 lbs/gal	Temperature:	Not determined
Flash Point:	>93.3 ⁰ C (200 ⁰ F)	Water/Oil Dist.	
Solubility:	Soluble	Coefficient:	Not determined
Viscosity:	No Information Available	Flammability:	Not determined
% Volatile (volume)	70 – 75%	Elemental	
Dilution pH:	N.A.	Phosphorous	0.0

Section 10 – Stability and Reactivity

Stability: Product is indefinitely stable in sealed containers.

Polymerization: Hazardous Polymerization does not occur.

Stabilizers: None at this time.

Physical appearance: Safety issues will not arise if product's physical appearance changes.

Materials to Avoid: Strong acids, bases, oxidative agents and quaternary disinfectants can degrade/inactivate proteins.

Conditions to Avoid: Storage in elevated temperatures or direct sunlight for prolonged periods. DO NOT freeze.

Section 11 - Toxicological Information

Routes of Entry: Absorbed by the skin. Eye contact

Acute Toxicity: Oral LD50 estimated to be >2g/Kg(Rat). Dermal LD50 estimated to be >2g/Kg(Rabbit). Contains only ingredients that are Recognized Safe in food applications in accordance with U.S. Food and Drug Administration (FDA) 21 CFR 178.3400

Component Information: See Section 3

Chronic Toxicity – Skin

Ingestion

Potential harmful

Chemical/carcinogen:

Special Remarks on Chronic Effects on Humans:

Safety Data Sheet

Section 12 – Ecological Information

Environmental Information: None at this time

Section 13 – Disposal Considerations

Waste Disposal: Waste must be disposed of in accordance with federal, state and local environment regulations. Do not reuse empty container.

Section 14 – Transport Information

DOT/TDG Please refer to the Bill of Lading/receiving documents for up to date shipping information where applicable.

UN number: None assigned

UN proper shipping name: None assigned

Transport hazard class(es): Not considered as a hazardous material or dangerous goods. No transport class assigned or needed.

Packing group number: No packing group assigned.

Environmental hazards: No known environmental hazards.

Guidance on transport in bulk: Transport in bulk according to Annex II of MARPOL 73/78 and the International Bulk Chemical Code (IBC Code).

Special precautions for user(s): No known precautions for transport. It is advised to avoid freezing product and temperatures above 140° F.

Section 15- Regulatory Information

United States

United States Inventory:

All components are listed or exempt

California Prop 65:

The following detectable components of this product are substances, or belong to classes of substances, known to the State of California to cause cancer and/or reproductive toxicity.

Chemical Name
NONE

CAS Number
NONE

HMIS (USA)

National Fire Protection Association (USA)

Health Hazard: 1

Health Hazard: 1

Fire Hazard: 0

Fire Hazard: 0

Reactivity: 0

Reactivity: 0

Personal Protection: Gloves and protective eyewear recommended

Personal Equipment: Gloves and protective eyewear recommended

Section 16 – Other Information

Additional Advice: None

Notice to Reader: This document has been prepared using data from sources considered technically reliable. It does not constitute a warranty, expressed or implied, as to the accuracy contained within. Actual conditions of use and handling are beyond the seller's control. User is responsible to evaluate all available information when using the product for any particular use and to comply with all Federal, State and Local laws and regulations.
